

POWER PLOW

<http://tiny.cc/powerplough>

- The corkscrew action of the blades pulls the plough through the ground
- The soil is discharged on the right hand side
- The horizontal digging action causes little or no hardpan

The MultiOne power plow can effortlessly dig into all types of soil, even hardened, rock-filled dirt that has never been broken. The rotary plow works well in areas with existing sod. It chops and buries the grass and roots and does not tangle easily.

This rotary plow is a powerful and effective method of preparing your soil for planting, and can work effectively in tight working areas, such as next to sidewalks, curbs, and other buildings.

Model	Weight	Code	Price
Power Plow	93 kg (205 lbs)	C891240
