

HYDROSEEDER

<http://tiny.cc/hydroseeder>

FEATURES & BENEFITS

- Cost effective
- Working range approx 15 m (50 ft)
- 10 meter (33 ft) hose

The MultiOne Hydroseeder is the ideal tool for the entry level hydroseeding professional. This unit is a versatile solution for those who are entering this business, such as gardeners and landscape contractors.

The hydroseeder tank is equipped with a hydraulically powered agitator that enables heavier hydromulch mixes to be applied.

The system includes a 10 m (33 ft) hose and a set of three nozzles.

Model	Range	Tank Capacity	Total dimensions	Weight	Code	Price
