

HYDRAULIC BIO SHREDDER

<http://tiny.cc/bio-shredder>

FEATURES & BENEFITS

- Compact dimensions
- Cost effective

The hydraulically powered chipper/shredder is a powerful tool for quickly reducing a pile of brush, garden waste, and tree limbs to reusable shredded mulch. Combined with the MultiOne, this chipper/shredder can work in areas not reachable with a traditional towed chipper.

The machines design incorporates a feed roller that pulls the branches up to 90 mm (3.5 in) diameter into the chipper section in a controlled, safe speed. The chips are then processed by the shredder section, reducing the wood chips to mulch. The operator remains safely out of the way during the chipping/shredding process.

Model	Max timber diameter	Weight	Code	Price
Hydraulic bio shredder	9 cm (3.5 in)	210 kg (463 lbs)	C890730
